

Inm<sup>4.0</sup>hacks

SPONSORSHIP  
**BROCHURE**

OCTOBER 19 - 20

THE LNMIIT, JAIPUR

[www.lnmhacks.com](http://www.lnmhacks.com)

# About the Hackathon

LNMHacks invites designers, programmers, and inventors to code, build and design innovative solutions to tackle the real-world problems. It provides a venue and platform for creativity and self-expression through technology. It doesn't matter if someone is writing the code for their 1st website or 100th. One can always work and improve a lot. The only constraint here is time.

LNMHacks 4.0 will be a 24-hour hackathon with a wide range of tracks such as Edtech, Fintech, Blockchain, IoT, Machine Learning, Computer Vision. Some of the tracks mentioned above will have dedicated problem statements and prizes.

The participants will be required to create a working application or a hardware prototype product to showcase their solution to the problem they are trying to solve.

# Highlights of LNMHacks 3.0

Lnmhacks 3.0 was successfully held from November 3-4th 2018 at LNMIIT jaipur in collaboration with Github, Hackerearth and many more.

After the great success of Lnmhacks 2.0 , we organised Lnmhacks 3.0 which also received an outstanding level of participation from developers all across the region.

## STATS OF LNMHacks 3.0

### PARTICIPATION

LNMIIT

47

Other Colleges

143

Girls

37

- 500+ registrations on our website for the first round to be selected for the main event.
- 250+ students were accepted for the event and their presence took the intensity of the event up by a notch.

- A dedicated team of about 50 volunteers was responsible for the hassle-free execution of the event in its entirety.
- GitHub workshop, and Docker and GitKraken sessions were organized alongside the main event.
- Facebook Developer Circle Jaipur, Py-Jaipur, Docker, IEEE SB-LNMIIT, WIE-LNMIIT were some of the communities that partnered with us for the event.
- 40+ successful submissions were made on our partner platform. The innovative projects ranged from applications to hardware products to machine learning solutions.
- 1.5 lakhs worth of prizes were provided to the winners.

# Why Sponsor us?

- We share the same target audience and want to reach the people who are enthusiastic about all forms of technology and are using it to develop better solutions and creating something unique for this world.
- Possibility of finding skilled interns and trainees for your organization, who would have a potential to give one of the best performances in their respective fields, owing to it to their well-verses knowledge of the area of their expertise.
- Live feedbacks of the APIs and other products by the hackers participating in the hackathon.
- Sponsors are given all possible assistance in hosting workshops and tutorials within the campus premises
- Apart from the registrations (600+) that are interested in our events, we have our social media posts reaching thousands of people which can further help us boost your reach
- The event is not targeted towards any form of profit whatsoever.
